Preparing for Employment

When family members have high academic and employment expectations for their children with disabilities, the youth experience greater success in those critical areas. Family members' awareness of their children's potential employability and the importance of work are likely to influence positive employment outcomes for youth with disabilities.

The following are considerations in preparing your son/daughter for employment.

**Communicate**

*... with your son/daughter.*
- Talk with your son/daughter about the future and his/her interests, dreams, and aspirations.
- Help your son/daughter identify his/her strengths, skills, and talents.
- Help your son/daughter learn about his/her abilities and disability.
- Build your son's/daughter's ability to self-advocate (speak for her/himself) by supporting her/his engagement in IEP team meeting and activities at home & in the community.

*... with your son’s/daughter’s IEP team.*
- Remember that you are a critical member of your son's/daughter's IEP team and no one knows your child better than you.
- As an IEP team member, offer information and assistance when discussing/creating your child’s IEP and assist your son/daughter in expressing their needs and interests. Ensure that information, such as the following, is shared.
